- Offered at the 100- or 200-level;
- Accessible and inviting to first-year non-major students;
- Adopt an Inquiry Orientation to design and delivery; and
- Include one or more Signature Assignments

### African-American History & Culture Requirements

## OT36 Outcome Mapping

For each OT36 learning outcome provided in the left column, indicate the following:

- (a) How the course embeds the outcome. How is it taught and developed? Provide specific examples
- (b) How specified assignments will be used to assess student achievement of the outcome
- (c) Where in the included materials (syllabus, assignments, etc.) can evidence of the embedding and assessing be found?

*Note: You may choose either the final or penultimate learning outcome. You need not satisfy both.*

OT36 Outcome	(a) Course Embed	(b) Assessment of Outcome	(c) Evidence of (a) and (b)

Recognize the complex elements of cultural biases on a global scale by identifying historic, economic, political, and/or social factors, such as ethnocentrism, colonialism, slavery, democracy, and imperialism.

## African-American History & Culture Emphasis

What aspect(s) of African-American history and/or culture does this course emphasize? How does this focus help students understand the contemporary experience of African-Americans?

How does the course either:

(a) provide students with a theoretical and/or empirical framework for understanding inequality and the distinguishing aspects of the African-American experience?

*Or*

(b) provide students with a theoretical and/or empirical framework for understanding African-Americans' contributions to US society as a whole?

## Inquiry Orientation

Core Curricular courses are expected to take an inquiry orientation toward course design, organization, and instructional method. While complete “Inquiry Based Education” is not required, courses should include the following two components, *which should also be explicitly reflected to students in the syllabus*:

- Organize learning around the exploration and investigation of problems or questions that would be of interest to and engaging for first year students;
- Require students to engage, individually or collaboratively, in some of the stages of inquiry.

**Major Problems/Questions:** What are the major problems and/or questions that frame your course?

**Stages of Inquiry:** How will students be engaged in the inquiry process in the course? What activities and/or assignments will be used to develop students’ ability to engage in inquiry?

## Core Competency Mapping

The core competencies required are provided below. For each competency, do the following:

- (a) Indicate which two learning outcomes the course will especially focus on developing and assessing through one or more signature assignments. The available learning outcomes can be found on the [CSU Core Competencies](#) page of the [Core Curriculum Handbook](#).
- (b) Indicate how each identified learning outcome is taught, practiced, and developed in the course.

## Signature Assignments

Each core curricular course is required to have at least one signature assignment and to assess all chosen core competency learning outcomes through signature assignments. All signature assignments include two parts: some form of **authentic assessment** and a **reflection assignment** related to the assessment and/or course.

To complete this section, do the following:

- (a) Name and briefly describe the signature assignment
- (b) Indicate which core competency learning outcome(s) the signature assignment will assess and how it will do so.
- (c) Indicate how students will be prompted to engage in meaningful reflection about their learning in the course

*If you are using more than three signature assignments, include an additional attachment in Curriculog answering the same prompts as below for each additional signature assignment.*
