

# Work Experience: Patient Care Nurse Assistant, Marymount Hospital

Lauren Lee

## INTRODUCTION

Hi, my name is Lauren Lee. I am a biology and chemistry double major and psychology minor at Cleveland State University. I am also on the Pre-Anesthesiologist Assistant pre-professional track. Starting in the Summer of 2021, I worked as a Patient Care Nurse Assistant (PCNA) at Marymount Hospital. I found this PCNA job through the Cleveland Clinic's website.

## OBJECTIVES

- Improve communication skills
- Improve teamwork skills
- Gain patient experience
- Become familiar working in a hospital setting
- Network

## RESPONSIBILITIES

- Report abnormal findings to the nurse
- Assist patients with personal care and activities of daily living
- Check blood glucose levels
- Perform vital signs
- Document in Epic
- Present positive attitudes
- Make sure all the patients are comfortable
- Float to other units when needed

## CONCLUSIONS

In conclusion, I really enjoyed my time at the Marymount Hospital. I met a lot of great patients and worked with a lot of great nurses. I gained a lot of useful skills that I could apply to my future profession. I got the patient experience and shadowing experience that I wanted. I highly recommend having a PRN position to balance your school and work schedules. From this PCNA experience, I learned that teamwork and communication are very important in healthcare.

## FUTURE WORK

I graduate from Cleveland State University in Spring 2023, and I plan on attending a Master of Science in Anesthesia program. From there, I hope to work as an anesthesiologist assistant.

## ACKNOWLEDGEMENTS

I would like to thank my Nurse Manager, Celedonia Manrique, for giving me the opportunity to work as a PCNA in her unit and allowing me to be extremely flexible with my work schedule. I would also like to thank the Choose Ohio First and Career Services Faculty for assisting me throughout my college career and for providing me with the resources that I can use in the future.
