Diversity Index

Continuing our commitment to recognize the diversity of our campus, this year we are providing a Diversity Index for readers of the Book of Trends. The Index gives page numbers for all tables and graphs relating to gender and ethnicity, so that readers can easily locate information about all aspects related to our campus' diverse makeup.

President's Medal

The most prestigious non-academic recognition that Cleveland State University can confer, the President's Medal, is awarded to individuals, groups or entities whose commitment and dedication to the University are beyond question. The medal is conferred only when the honoree has made continuing and/or extraordinary contributions, or has provided exemplary and ongoing services that have directly and tangibly advanced the best interests and mission of Cleveland State University. The first President's Medal was presented in November 2004.

President's Medal

Recipients		Recipients	
2013	Jennie Jones Trevor Jones	2008	Natalie Epstein Lainie Hadden
2012	Donald E. Washkewicz	2007	Art J. Falco
2011	Monte Ahuja Dr. Usha Ahuja Ronald E. Weinberg	2006	James D. Ireland III Dr. William Hiller Stanley Miller
2010	Anand "Bill" Julka Dr. Neeraj Julka	2005	Dr. Julian M. Earls Maria Miller Babs Glickman
2009	Mrs. Jean L. Elsner	2004	Dr. Delos M. (Toby) Cosgrove

Distinguished Alumni Award

Annually, outstanding graduates of Cleveland State University are honored for their service, leadership and career achievements with a Distinguished Alumni Award.

2009 Honorees

Gary S. Adams	George B. Davis Award
Robert L. Norton	Monte Ahuja College of Business
Father Kevin M. Conroy	College of Education and Human Services
Craig A. Black	Fenn College of Engineering
Carol G. Emerling	Cleveland-Marshall College of Law
Andrew F. Puzder	College of Liberal Arts and Social Sciences
Andrius Kazlauskas	College of Sciences and Health Professions
Christopher S Ronayne	Maxine Goodman Levin College of Urban Affairs

2010 Honorees

Irene A. Holyk Rennillo	George B. Davis Award
Saji T. Daniel	Monte Ahuja College of Business
Catherine S. Koppelman	College of Education and Human Services
Terrence V. Zuk	Fenn College of Engineering
Tanisha R. Briley	College of Graduate Studies
David M. Paris	Cleveland-Marshall College of Law
Miriam Solomon Plax	College of Liberal Arts and Social Sciences
Dr. David G. Watterson Jr.	College of Sciences and Health Professions
John J. Boyle, III	Maxine Goodman Levin College of Urban Affairs

2011 Honorees

Richard P. Stovsky	George B. Davis Award
Linda M. Kane	Monte Ahuja College of Business
Dr. Aaron T. Ellington	College of Education and Human Services
Joseph A. Williams	Fenn College of Engineering
Ian N. Friedman	Cleveland-Marshall College of Law
Maria Keckan	College of Liberal Arts and Social Sciences
Dr. Beth Brandt Sersig	College of Sciences and Health Professions
Madeline A. Cain	Maxine Goodman Levin College of Urban Affairs
Dr. Nancy M. Albert	School of Nursing

2012 Honorees

Timothy F. Hagan	George B. Davis Award
William J. Centa	Monte Ahuja College of Business
Daniel J. Keenan	College of Education and Human Services
George J. Palko	Fenn College of Engineering
Larry H. James	Cleveland-Marshall College of Law
Dr. Ruth D. Peterson	College of Liberal Arts and Social Sciences
Thomas E. Hopkins	College of Sciences and Health Professions
Erin Dee Huber	Maxine Goodman Levin College of Urban Affairs
Sheila A. Niles	School of Nursing

Figure 2.2a: Enrollment by Level Fall 2012

Figure 2.2b: Enrollment by Load and Level Fall 2012

Highlights:

Over 70% of undergraduates attend full-time. At the graduate level 66% of CSU students attend part-time. CLASS has the largest number of undergraduates and COEHS has the largest number of graduate students.

Note: A new methodology has been used to determine New Master & Doctoral students beginning Fall 2010. These are now cohorts chosen by Graduate Studies. Beginning in Fall 2010 Graduate Licensure was moved from Masters/ Law to Other Graduate.

¹ Other Graduate includes students enrolled in Non-Degree Courses and Transfers. Part-time new Masters and Doctoral students are also under Other Graduate now.

NOTE: In prior editions of the Book of Trends multiple methodologies were used to count new graduate students in the different years within the same table. This year, we have chosen one methodology and have applied to the entire table. Specifically, students are marked as “new” during their first year at the graduate level. New students pursuing a Master’s degree, a Law degree, or a Licensure degree are included in the first section of the table. First-time graduate students who are pursuing a Doctoral degree are included in the second section of the table. All other new graduate students, including non-degree and graduate transfer students, are included in the “other” category.

This methodology mirrors the rules used by the Ohio Board of Regents. Specifically, the Regents require that a graduate student be reported as “new” only once and only in the first semester they are considered a graduate level student.

Study Abroad: Study Abroad (SAB) courses are included in the course level of Upper rather than following the standard numeric values associated with the catalog number of the course.

Note: The lower number of units for Developmental courses reflects a recategorization of some English classes from Developmental to Lower.

¹ Other includes students enrolled in Air Force, Career Services, English as a Second Language, Military Science, Special Programs and Study Abroad.

Note: Some SCH gain in CLASS and Science is attributed to the redistribution of developmental English & Math courses to these units from Undergraduate Studies.

This table uses units progress rather than units taken.

Undergraduate Non-Degree and Graduate Studies fluctuations are due to procedural changes.

Book of
Trends

For this year's Book of Trends we have made an adjustment in how we group students within a given department (tables 3.1 through 3.11a). Students with multiple majors are now reported in each major. Tables 3.1 through 3.11a show the number of declared majors within a given department and school, *not the number of students*. We were only able to apply this new method to Fall 2010 and Fall 2011 enrollment numbers; therefore numbers using the old method are reported from 2007, 2008, and 2009.

The rest of the tables in this chapter are at the school level and do follow the old rubric of selecting students based on their primary major, as determined by state reporting rules. As such, *these tables do represent headcounts*.

¹As the School of Nursing split from the College of Education, a number of changes occurred in the SON's academic plan codes; specifically, Pre-Nursing plan codes. Originally, all students interested in nursing, but who had not yet been admitted to the school were grouped into general "pre-nursing" codes. The Fall of 2010 was a transitional year, wherein most students who had not been admitted into the nursing program were grouped under an "exploratory nursing" code housed in Undergraduate Studies. This past year, Fall 2011, students who have been admitted to CSU but not yet been admitted to the SON are grouped into codes based on where they are receiving advising. "Pre-Nursing," regardless of whether the student has earned any other degree or licensure, now refers to students receiving their advising by SON advisors. "Exploratory Nursing" refers to students who have indicated an interest in nursing but who are being advised by Undergraduate Studies advisors.

East and West Centers

The opening of Cleveland State University West Center (Westlake) in August 2003 and East Center (Solon) in August 2004 established a suburban presence for the University's thriving downtown campus. The mission of the centers is dedicated to serving all students and offering the highest level of customer service. Academic offerings include programs for educators (teachers and administrators), business and public service professionals seeking to complete their university degree, and traditional college-age students and high school students in post-secondary educational option programs. CSU has given high priority to strengthening relationships with local community colleges and supporting the rise of e-Learning. As such, the East Center in Solon closed in August of 2011.

Partnerships with Lakeland Community College and Lorain County Community College

The partnerships foster direct collaboration with community colleges to offer degree programs on the community college campus in addition to easy transfer through dual admission and various articulation agreements. All locations have grown in popularity as transfer students recognize the value and convenience of gaining an associate's degree and a degree from CSU. Liaison with these community colleges has been well planned and highly successful due to a shared passion for educating students.

Sponsored Programs and Research at Cleveland State University

The University is committed to enhancing the research environment in support of its faculty and students. As such, efforts are underway to expand the research services currently offered to assist those seeking external funding for research, scholarship, and creative projects. Cleveland State University established a new office, the Office of Research, headed by the Vice President for Research and Graduate Studies, who is responsible for raising the research profile at Cleveland State University and for establishing the University as a recognized contributor to the local, regional, national and global research priorities. The creation of this expanding office will enable the University to achieve its mission, in which scholarship and research are held as major tenets.

Bringing discoveries from the laboratory to the classroom and to the world is a long and very expensive undertaking, one that is at the heart of what a university should do and do well. While Cleveland State is a “young” institution, it has committed itself to discovery and to becoming a research-focused university. And, while we are still in the early phases of that steep research incline, CSU has much to show for its initial efforts - efforts that presage a promising future.

It is important to note that the sponsored program proposals and awards that are described by the numbers and charts to follow would not have been possible without the drive, dedication and intellect of the University's talented and diverse faculty and the contributions of graduate students and postdocs.

Table 4.1: Sponsored Program Awards and Expenditures, Fiscal Years 2007-2012

Source	Fiscal Year						Percent Change	
	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012	1 Year	5 Year
Awards	\$46,453,388	\$27,661,642	\$18,677,794	\$22,909,197	\$17,093,917	\$13,483,748	-21%	-71%

CCF Expenditures	N/A	N/A	N/A	\$24,422,152	\$43,642,969	\$44,925,258	3%	
CSU & CCF Exp Total	N/A	N/A	N/A	\$42,981,099	\$60,556,700	\$65,543,170	8%	

Notes:

¹ The Total Award amount for FY 2010 & forward differs from that listed in the Monthly Activity Reports previously published by OSPR (<http://www.csuohio.edu/offices/spr/monthlyactivityreports/index.html>) for two reasons: 1) the reports in the Book of Trends include State Appropriations as a separate line-item while the Monthly Activity Reports do not. The amount stated here is higher because not all State Appropriation funding has been allocated to a Sponsored Program account. 2) The Award amount in the Monthly Activity Report for FY 2010 and the Award Amount numbers published in the Book of Trends for previous years were based on the Award amount received during that period for each project. For FY 2010 and forward, the Total Project Award Amount is reported.

² FY 2010 forward, CSU is including research expenditures from the Lerner Research Institute(LRI) at the Cleveland Clinic Foundation. These expenditures are only for those grants held by LRI faculty who engage with Cleveland State University students.

Figure 4.1: Sponsored Program Awards and Expenditures, Fiscal Years 2007-2012

Note: The large increase in funding during Fiscal Year 2007 is due to the \$23.8 million award from the State of Ohio's Third Frontier program that established the Wright Center for Sensor Systems Engineering. This Center involves a 33 member partnership led by the University.

Grant: A financial assistance mechanism whereby money and/or direct assistance is provided to carry out approved activities.

National Science Foundation Rankings of Cleveland State University and Other Selected Schools

The NSF rankings are widely recognized as a valuable benchmark in comparing the level of research taking place at institutions across the country. This survey, completed by more than 900 institutions in 2011, compiles research and development expenditures only and is therefore a portion of the sponsored programs expenditures previously reported. The first table (4.5) below compares Cleveland State with other Northern Ohio institutions, while the second (4.5a) shows other institutions ranked similarly to Cleveland State. In addition to seeking and receiving funding for research and development, the University places a heavy emphasis on graduate education and involving those students in the research laboratory.

Table 4.4: National Science Foundation Ranking of Research and Development Expenditures, Fiscal Years 2006-2011 (Northern Ohio Comparison)

Institution	2011	(Dollars in Thousands)					
	Ranking	2006	2007	2008	2009	2010	2011
University of Toledo	166	\$30,493	\$52,448	\$59,583	\$66,136	\$70,399	\$74,149
University of Akron	177	\$28,440	\$27,138	\$27,182	\$34,507	\$52,884	\$65,536
Cleveland State University	193	\$14,496	\$15,948	\$14,131	\$13,424	\$34,235	\$55,502
Kent State University	251	\$11,076	\$19,001	\$23,293	\$25,050	\$26,331	\$27,455
Bowling Green State University	336	\$9,912	\$9,120	\$10,712	\$8,396	\$8,124	\$8,999
Youngstown State University	402	\$1,308	\$611	\$1,193	\$2,081	\$4,523	\$4,732

Indirect Cost Recovery

Indirect cost recovery is defined as the agreed upon revenue received from a sponsoring agency to pay a grant or contract's share to reimburse the university for the indirect costs it incurs. Indirect costs are real costs. Indirect cost calculations are based upon such items as space, utilities, security, maintenance, custodial, payroll, purchasing, accounting, personnel and many other expenses associated with project administration and implementation. A portion of indirect costs recovered at Cleveland State University (CSU) become part of the general fund budget for the entire university.

Half of all indirect costs returned on sponsored programs remain in the university's general fund. This money is set aside for covering administrative expenses for sponsored program administration. It is also used to cover costs of facilities, depreciation on buildings and equipment, operation and maintenance of facilities, and library expenses. The other half of the indirect costs recovered are distributed as follows: 5% to project director, 15% to project director's department, 10% to relevant dean's office, and 20% to the Vice President for Research & Graduate Studies.

Table 4.5: Indirect Cost (IDC) Recovery and Total Sponsored Program Expenditures by Year, Fiscal Years 2007-2012

Research Activities							Percent Change	
	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012	1 Year	5 Year
Direct Sponsored Program Expenditures	\$21,530,163	\$22,227,857	\$19,544,345	\$17,027,376	\$15,351,047	\$18,844,807	23%	-12%
Indirect Cost Recovered	\$1,860,080	\$1,626,885	\$1,401,220	\$1,531,571	\$1,562,684	\$1,773,105	13%	-5%
Total Sponsored Program Expenditures	\$23,390,243	\$23,854,742	\$20,945,565	\$18,558,947	\$16,913,731	\$20,617,912	22%	-12%
% IDC of Direct Research Expenditures*	9%	7%	7%	9%	10%	9%		

Notes:

* The % IDC is calculated by dividing the actual indirect cost recovered by the actual direct expenditures for each year.

Source: CSU Office of Sponsored Programs and Research

* The success rate for each year is calculated by dividing the Awards Received for that year by the Proposals Submitted during the immediately preceding year. Although it is reasonable to assume that most Awards are based on Proposals submitted during the immediately preceding year, this can create instances where the Success Rate exceeds 100%. This is because some of those years' awards are based on Proposals submitted during both the prior and current year.

Table 4.7: Proposals Submitted and Awards Received by College or Division, Fiscal Years 2007-2012

Proposals and Grant Awards	Fiscal Year					
	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012

Central Administration	\$2,141,042	\$2,273	\$2,143,315	7
Continuing Education	\$0	\$0	\$0	0
Undergraduate Studies	\$0	\$0	\$0	0
Fiscal Year 2012 Totals	\$11,847,252	\$1,636,495	\$13,483,747	149

Notes: The amounts above do not include State Appropriations. Due to the manner in which the State Appropriation line-item is included in Table 4.2, it is not possible to determine which College or Division received those funds.

Figure 4.7: Proposal Submissions and Grant Awards, Fiscal Years 2007-2012

Intellectual Property

Contemporary universities committed to teaching, research, service, and dissemination of knowledge increasingly find themselves in a position of having created knowledge or materials with commercial value. Creation of such knowledge or materials, also referred to as intellectual property, is a much coveted outcome of any vibrant research program. Activities that result in the creation of intellectual property raise the reputation of the university and involved researchers. They also create rich educational opportunities for students participating in such programs. Universities may gain significant revenue through commercialized trademarks.

Table 4.8: Intellectual Property: Patents and Disclosures, Fiscal Years 2007-2012

Source	FISCAL YEAR						Percent Change	
	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012	1 Year	5 Year
Disclosures	9	8	6	6	7	3	-57%	-67%
Non-Provisional Patent Apps. Filed	2	6	4	4	3	6	100%	200%
Provisional Patent Applications Filed	3	5	3	6	3	1	-67%	-67%
Licenses Approved	-	1	-	-	-	1	-	-

Source: Technology Transfer Office

5 Year Percent Change is from the period 2007 to 2012.

Notes: The following definitions are from the US Patent and Trademark Office (www.uspto.gov)

Disclosure: Description of an invention in a patent or patent application.

Patent: Granting of a property right to the inventor, issued by the United States Patent and Trademark Office.

Licenses approved: The patent law provides for the transfer or sale of a patent, or of an application for a patent, by an instrument in writing. Such an instrument is referred to as an assignment of license.

Table 4.9: Cleveland State University Graduate Student Support from Externally Funded Research, Fiscal Years 2008-2012

Source						Percent Change	
	2008	2009	2010	2011	2012	1 Year	5 Year

Growth in Graduate Education

Graduate education at Cleveland State has seen unprecedented growth in recent years, from 3,000 students in the 1980's, to 4,000 in the 1990's, to approximately 5,000 students pursuing graduate and post-graduate programs at the University. Such growth in graduate programs has implications for strengthening the quality of these offerings and seizing opportunities for supporting educational goals of students by creating new and tailored program offerings. Growth in graduate programs at CSU points to numerous research opportunities for future students and faculty researchers. Institutional investments in graduate education are closely linked with strategies for promoting sponsored research, which lead to an increased opportunity for the contributions of graduate, doctoral and post-doctoral students.

Table 4.10: Percentage of Total Student Credit Hours Taken by Graduate Level Students at Selected Ohio 4-Year Institutions-Main Campuses Only, Fall Terms 2008-2012

Institution	2008	2009	2010	2011	2012	Grad SCH

[†] Indicates institutions that had not finalized enrollment data by query date.

Highlights

- Table 4.10 From 2008 to 2012 Cleveland State University has continued to hold steady in the percentage of total student credit hours taken by graduate students. At 19%, Cleveland State University's percentage of total student credits remains among the highest of Ohio's 4-year institutions.

Table 4.11: Selected Research & Grant Highlights by College

College	Department	Project Description
Business	Outreach and Business Center	Small Business Development Center (SBDC): The College received \$70,000 from the State of Ohio to run the Small Business Development Center. The Cleveland State University (CSU) SBDC is funded by the Ohio Department of Development (ODOD) and the Small Business Administration (SBA). The CSU SBDC serves Cuyahoga County. The CSU SBDC provides high quality business and economic development assistance to small businesses and nascent entrepreneurs in order to promote growth, expansion, innovation, increased productivity and management improvement. In addition, the SBA, SBDC, City of Cleveland Heights and the Cleveland Heights Library provided \$70,000 to set up a new SBDC office and hire a P/T SBDC counselor.
		Small Business Jobs Act: The college received \$69,389 from the State of Ohio for the Small Business Jobs Act. The CSU SBDC is the recipient of additional funding made available through the Small Business Jobs Act to extend the Small Business Administration's (SBA) Recovery Loans for small business owners. These funds expand the current small business assistance services offered through the CSU SBDC at Shaker LaunchHouse.
		International Trade Assistance Center (ITAC): The College received \$125,000 from the State of Ohio to run the International Trade Assistance Center for Region 8 and Region 5. International trade specialists provide export assistance and focus new-to-export businesses and exporters on expanding overseas markets. They promote business development through international market opportunities, increase small business export transactions, export sales, and support future competitiveness.
Education and Human Services	Counseling, Administration and Adult Learning	Center for Educational Leadership: Evolved from the nationally recognized First Ring Leadership Academy, the Center for Educational Leadership partners with urban school districts to offer professional development for principals and academic programs to develop and sustain inspired leaders for today's schools. Most notably is the Inspired Leaders Principal Licensure Program, which is launching its fifth cohort. Also offered are the Master of Education in Organizational Leadership, the Empowered Leaders Teacher Endorsement Program and the Education Policy Fellowship Program.
		Career Passport Program currently called Making My Future Work: A three year \$1,000,000 USDE, Institute of Education Sciences grant. It continues to develop, refine, implement and evaluate a college and career readiness program for use in urban secondary schools as an intervention to prevent school dropouts. A state-of-the art, user friendly curriculum manual consisting of 100 lessons and four modules has been created by key personnel, public high school teachers, graduate assistants and a graphics design consultant. A training and orientation video to accompany the manual is being developed in collaboration with the Center for Educational Technology. During the FY12-13 school year the program was delivered in seven different high schools.
	Curriculum and Foundations	Gifted Education Enters Cyberspace: The graduate program in Gifted Education is offering all six required courses online, extending outreach to meet teachers' needs in serving gifted, talented, and advanced learners in schools across the country.
		The Center for Urban Education: Carries out part of its mission by assisting faculty at CSU and external partners in P-20 education with the identification, development and/or submission of grant proposals including the execution and management of grants at post-award. During the second fiscal year of operation the Center helped obtain and/or serve on 10 grants which total to \$4,461,472 in aggregate funding. The Center is awaiting official award notification for an 11th grant which was recommended for funding by NSF.
	Greater Cleveland Educational Development Center	The Cleveland Schools Book Fund: The program is designed to supply all Pre-K through Grade 3 classrooms in the Cleveland Municipal School District with libraries of children's literature as well as provide teacher professional development to increase young students' interest in and ability to read, comprehend and enjoy.
		The Stocker Foundation, Reading Adventure!: The grant targets students in two low-performing Cleveland schools, provides each student with 20 books, both non-fiction and fiction, and imparts parental instructions to develop literacy within their homes and provide enrichment of the English Language Arts common core standards.

College	Department	Project Description
		<p>First Ring Leadership Academy: Coordinates the design and delivery of a year long training program promoting transformational leadership in the teachers and administrators working in the Cleveland Municipal School District and the thirteen inner ring school districts bordering Cleveland.</p>
	Teacher Education	<p>Project Reach: A major five year grant to improve Cleveland State University's ability to prepare all teachers to provide effective instruction for Limited English Proficient students, professional development for content area teachers to improve academic achievement of Limited English Proficient students, and to become a region that provides strong support in both language acquisition and content learning for all classrooms that serve Limited English Proficient students.</p> <p>Highly Qualified Teachers Program: A five year U.S. Department of Education grant to enhance the Special Education Programs. The emphasis is on graduating candidates who meet the highly qualified teacher guidelines under the No Child Left Behind and Individuals with Disabilities Education Act legislation.</p> <p>CSUTeach: With the support of the NSF Noyce Scholars Program and Cleveland State's partners (National Math and Science Initiative, UTeach Institute, Ohio STEM Learning Network, and the Cleveland Metropolitan School District) Cleveland State is bringing the UTeach model to Ohio transforming the teacher education experience for pre-service teachers to be licensed to teach grades 7-12, with an emphasis on preparing for underserved, urban classrooms. The program provides project-based instruction and inquiry design in mathematics and science classrooms. Students participate in internships with local schools and non-profit organizations. Scholarship funds are available to eligible STEM students. Noyce Scholars will be eligible to become licensed STEM teachers.</p> <p>Choose Ohio First: This scholarship program which provides renewable scholarships of up to \$4,700 per year is designed to attract and graduate qualified STEMM Education students. Scholarship recipients are required to tutor in an academic environment to support classroom education. As part of the Ohio Innovation Partnership and funded through the Ohio Board of Regents, the scholarships are designed to significantly strengthen Ohio's competitiveness in science, technology, engineering, mathematics and medicine (STEMM) and STEM education.</p> <p>The Masters of Urban Secondary Teaching (MUST) STEM Fellows Program: The program awards full tuition scholarships to eligible students pursuing licensure in math or science and will also fund up to 8 hours of undergraduate credit for students who need to complete pre or co-requisites for the MUST program.</p> <p>Careers in Health and Medical Professions (CHAMPS): An ongoing year round program developed to recruit minorities into high skill level health care careers by increasing awareness and knowledge. The program provides two or more years of intensive academic enrichment by engaging high school students in skill enhancement, in-depth medical career experiences and thought-provoking science activities while helping them develop into a unified, cohesive cohort.</p> <p>The Campus International School (CIS): Conceived as a professional development school with the Cleveland Metropolitan School District (CMSD), Campus International School is a public school currently offering instruction in Kindergarten through 5th grade to an economically and socially diverse population of students. The aim of the school is to develop well-rounded, knowledgeable, internationally minded students who recognize their common humanity and shared guardianship of the planet. In all areas of the school, the teachers and staff model the learners' profiles to help teachers and students establish goals, plan units of inquiry, and assess performance. CIS teachers collaborate within and across grade levels to ensure that each student's instructional needs are met. Professional development is institutionalized with two hours of professional development each week with varied topics based on need. Cleveland State provides a Professor-in-Residence to the school staff and serves as an intermediary between the school and university. Interactions with the university include student field experiences, speech, hearing, psychology and occupational therapy assessments, regular after-school physical science experiences, daily Mandarin language and cultural instruction, facilities for physical education classes, administrative support and grant funding to support school instruction.</p>

College	Department	Project Description
		<p>Differentiating Instruction at the Campus International School: Supported by the Martha Holden Jennings Foundation the project was developed by an observation that some of the CIS teachers were tracking students by dividing them into static ability groups rather than differentiating instruction by developing multilevel activities that provide opportunities for all children to participate and achieve. The CSU project team introduced and/or extended their knowledge of and ability to implement specific ways to differentiate instruction. The project consisted of numerous phases during school year and included two levels of evaluation: a formative evaluation and an external evaluation. The resulting summary and recommendations were ways Differentiated Instruction can be sustained at the Campus International School and transferred to other CMSD schools. The teachers assessed their students' learning and the faculty members and external evaluator assessed teacher learning.</p>
		<p>The Community Learning Center: Formerly the Educational Services Center, the Community Learning Center for Children and Youth (CLC) provides an engaged-learning experience for students at Cleveland State while serving the community by offering free assessment and tutoring programs for children at the elementary and middle-school grade levels who have difficulties with reading, math, or learning in general. The children's positive learning experiences with the CLC have been recognized both by their families at home and their teachers at school. Under the supervision of the Department of Teacher Education, the CLC has grown from supporting two classes serving thirty children from the community to nine serving 180 children from the community. Continuously expanding, the CLC now offers a program for children learning English as a second or foreign language for university students pursuing a degree or endorsement in TESOL (Teaching English to Speakers of Other Languages). As an integral part of the teacher-education program, the CLC allows for both undergraduate and graduate students to engage in real-life experiences assessing and teaching children from diverse backgrounds. Through interactions with the children at the CLC, faculty provides supervised opportunities in their courses for university students pursuing licenses and/or degrees in education to explore the links between research, theory, and practice. Additionally, the CLC hosts a range of educational resources, including assessment and curriculum materials and assistive technology devices, for faculty to demonstrate in classes and for students to examine and use.</p>
	Health and Human Performance	<p>Workplace Health Programs: Working in collaboration with CSU's VikeHealth program, Departmental faculty in Health and Exercise Physiology oversee the Fitness for Life employee fitness program and offer a multitude of health promotion and fitness programs for the Journey to Wellness program for CSU employees.</p> <p>Human Performance Laboratory: The Human Performance Laboratory is a state of the art facility designed for teaching and research. Currently the laboratory is working on several projects with Orbital Research Inc., including a pilot physiological assessment system aimed to monitor hypoxia (lack of oxygen) in the Air Force's F-22 Raptor pilots. The lab is equipped to simulate flight physiology of pilots up to 25,000 feet altitude and is testing Orbital's sensors to predict hypoxia before the pilots become impaired and unable to fly. Another Orbital Research project is the development and testing of a microsystem to sense and control warfighter physiology, in particular Special Forces in extreme military dive operations. During this research, the lab will test sensors developed by Orbital that can monitor and deliver proper breathing gas mixtures during rapid descent from altitude. Currently several graduate students are conducting research involving devices to enhance recovery in athletes, prevent hyperthermia, and to correlate power with speed and agility. The lab will be expanding into new areas for subcellular research.</p>
Engineering	Chemical and Biomedical Engineering	<p>Material World Network: Synthesis and Characterization of Functional Molecular Building Blocks for Responsive Materials: This NSF project has aimed at developing environmentally responsive materials that can generate larger responses with shorter response times than current materials.</p> <p>Optical Instrumentation, Non-Destructive Evaluation (NDE), High Temperature Materials and Structures and Numerical Modeling for Advanced Aerospace Application: This NASA project has been carried out via four sub-tasks: propulsion health monitoring system development and instrumentation; integration of NDE and finite element modeling and image visualization; development of acoustics, tomography, and radiography sciences and facilities in operations; and planar optical diagnostics for flow field measurements and optical build up.</p> <p>Effect of Convection on Dendritic Array Morphology During Directional Solidification: This NASA project has involved experiments on the International Space Station to understand the role that convection plays in determining the dendritic array morphology and homogeneity.</p>

College	Department	Project Description
		<p>Stem Cell Therapy Strategies for Prevention and Treatment of Pelvic Organ Prolapse: This graduate research fellowship grant funded by NSF is investigating the potential for Mesenchymal Stem Cell therapy in the treatment and prevention of pelvic organ prolapse and urinary incontinence.</p> <p>Effect of Varying Convection on Dendrite Morphology and Macrosegregation: This project aims to: (a) study directional solidification of Al-Cu alloys that are compatible with the Space Station facilities; (b) conduct experiments involving solidification through cross-section decrease and through cross-section increase; and (c) examine array morphology changes and macrosegregation associated with DS through cross-section changes.</p> <p>Characterizing and Benchmarking Zeolite Absorbents for Oxygen Concentrators: This project in collaboration with Invacare corporation aims at improving oxygen concentrators for persons who need oxygen therapy. The heart of these devices is a “molecular sieve bed” which concentrates oxygen from ambient air at 21% to about 98%. CSU’s research expertise in gas separation and storage by adsorption and in modeling chemical processes will perfect the next generation portable oxygen concentrators with higher efficiency.</p>
	Civil and Environmental Engineering	<p>An Integrated Framework for Creation and Assessment of Sustainable Construction Processes: This NSF project has aimed toward reducing the carbon footprint of construction. The research has involved developing metrics, strategies, and case studies for sustainable development.</p> <p>Implementation and Assessment of Failure Case Studies in the Engineering Curriculum: This NSF project has aimed at developing a series of failure case study workshops for faculty at many locations in the United States and abroad.</p> <p>Uncontrolled Concrete Bridge Parapet Cracking: There appears to be wide-spread premature cracking of bridge concrete parapets on relatively recently constructed bridge decks. Cracked parapets are a safety concern and the potential cost to remove and replace parapets could be significant. This ODOT project aims at determining the reasons for uncontrolled bridge deck parapet cracking, and to provide recommendations to ODOT to prevent such cracking in the future.</p> <p>University Transportation Center for Work Zone Safety and Efficiency: The goal of this USDOT project has been to better understand driving behaviors and motivations, and establish work zone traffic control best practices and design protocols to save lives.</p> <p>Evaluation of Traffic Flow Analysis and Road User Tools Applied to Work Zones: When a construction or maintenance project on an ODOT interstate or freeway violates the Permitted Lane Closure Schedule, a queue analysis must be completed. The objective of this ODOT project is to establish a reliable, user-friendly procedure for analyzing work zone queuing and calculating road user costs that is reflective of current traffic conditions and technologies.</p> <p>Evaluation of Ohio Work Zone Speed Zones Process: In April 2011, the ODOT published a new process for the use and determination of speed zones in an effort to enhance the safety of the traveling public and workers while providing efficient flow of traffic through work zones. The objectives of this research are to determine the effectiveness of the new ODOT process for establishing work zone speed zones as compared to the previous ODOT process and previous NCHRP recommendations and recommend improvements to ensure the safe and efficient flow of traffic in work zones.</p>
	Electrical and Computer Engineering	<p>Mobility & Security Support in Disadvantaged Cyber-Physical Systems: This project has been modeling mobility of ground as well as aerial units, such as unmanned aerial vehicles, and proposing mobility support mechanisms and algorithms, and security measures implemented at the physical level of communication protocol as an effective anti-jamming method.</p> <p>Biogeography-Based Optimization: This NSF project has aimed at developing new nature-inspired methods for the optimization of engineering systems with applications to power distribution, robot control, and cardiac disease diagnosis.</p> <p>Rapid Rehabilitation and Return to Function for Amputee Soldiers: This ODOD project has investigated a new design for a hydraulic prosthetic knee for transfemoral amputees, and also aimed to derive control signals for the prosthesis.</p> <p>Automotive Engine Time-to-Torque Optimization: Automobile manufacturers are interested in finding engine controls to take automotive engines from a given initial torque to a desired final torque. This project is using computer intelligence-based methods to solve this problem. This has resulted in an improved time-to-torque by over 75% from the best previously-obtained solution.</p>

College	Department	Project Description
		<p>Improving the Productivity of the Sensor Network Programmer: This NSF project has investigated ways to make construction and maintenance of sensor network systems accessible to “non-programmer specialists”, outside the field of computing, who are the real end users of sensor networks.</p> <p>Stabilization of Immobilized Enzymes for Implantable Glucose Monitoring Devices: An obstacle for the development of implantable glucose biosensors is the instability of the enzyme immobilized on the electrodes of the sensors as the sensing element. This project funded by the American Diabetes Association has aimed to overcome this problem using a spatial confinement approach.</p> <p>US-Egypt Cooperative Research: Ultrasmall Silicon Nanoparticle Technology for Renewable Energy Applications: This NSF project aims to substantially advance renewable energy technology. The prototype devices to be built are expected to show enhanced performance in terms of energy harvest efficiency and energy storage capacities.</p> <p>A Nationwide Consortium of Universities to Revitalize Electric Power Engineering Education by State-Of-The-Art Laboratories: This research project, funded by USDOE, aims at developing state-of-the-art test benches in the field of power for both research and teaching purposes.</p> <p>EAGER: Towards Next Generation Anonymous Communication Networks: The main objective of this NSF project is to study new architectures for anonymous communications in order to defeat privacy attacks, both passive and active privacy attacks.</p>
	Mechanical Engineering	<p>Non-Destructive Evaluation and Structural Health Monitoring of Advanced Composite Materials and Propulsion Systems: The goal of this NASA project is the development and application of nondestructive evaluation techniques for advanced aerospace materials and components. The techniques should distinguish and quantify the types and extent of material manufacturing defects and mission exposure damage.</p> <p>Robust Model-Based Fault Diagnosis for Propulsion System Components with Uncertainties: This NASA project focuses on the identification of structural faults for propulsion components or entire system described by the model which can be uncertain. The model-based identification is based on derived transfer functions, generated from an analytical model or directly measured. To identify the structural damage, the robust control tools are applied to extract the missing component/ system dynamics due to localized damage. Results of this research can find direct applications in structural health monitoring of aircraft engines or other propulsion systems.</p> <p>US-Germany collaboration: Achieving breakthroughs in the mechanics of high-temperature ceramic coatings with novel thermal-gradient mechanical fatigue studies: This work aims to enable breakthroughs in the understanding of degradation and failure mechanisms in high temperature ceramic coatings. Synchrotron X-ray diffraction (XRD) and piezospectroscopic (PS) techniques are used for high resolution measurements to quantify the in situ evolution of strain in these coatings under thermal gradient-mechanical fatigue conditions. These measurements are matched with numerical simulations. This is a collaborative effort between Cleveland State University, University of Central Florida and the German Aerospace Center.</p> <p>Hot Extrusion of Ultraconductive Nanocomposite Copper: The project seeks to extend the ultra conductivity results achieved in our patented (US Patent 8,347,944) work from the millimeter scale to longer ultra conductive wire on the meter-Kilometer scale. The project also aims to perfect the manufacturing process that will be used to mass produce the ultra conductive copper wire.</p> <p>Experimental and Computational Investigation of Unsteady Endwall and Tip Gap Flows in Gas Turbine: This NASA – US Naval Academy project aims at better understanding complex flows in the endwall regions of gas turbine passages under a variety of tip gaps or endwall treatments. Computational unsteady 3D studies will be performed and validated by experimental studies.</p>
Liberal Arts and Social Sciences		<p>In AY 2012-2013 CLASS faculty published or sent to the press a total of 12 books, including seven academic press research monographs or collections and five new textbooks. Departments represented include Art (2), Communication (2), English (1), History (3), Modern Languages (1), Music (2), and Sociology (1). CLASS faculty also published 76 scholarly journal articles and gave over one hundred conference presentations. CLASS faculty from the Arts departments (Music, Art, and Theatre/Dance) gave 78 creative performances (in music or drama) and made 80 creative productions (music, art work, and new drama), variously presented in local, national or international venues. New research grants included one in Political Science from the US Agency for International Development. The Criminology Research Center filed its final report to the Cuyahoga County Prosecutor's Office on “Discretion in Police Decision-Making.” This year Sociology also contributed to the conceptualization for a significant university patent application for new digital device software.</p>

College	Department	Project Description
School of Nursing	Nursing	Preventing Diabetes Using the Stanford Chronic Disease Self-Management (CDSM) Model: Funding from the Ohio Commission on Minority Health allowed the School of Nursing to address the prevention of type 2 diabetes and obesity through the Stanford University Chronic Disease Diabetes Self-Management (CDDSM) program. The health promotion and disease prevention focused program was provided to intergenerational and diverse groups in the community. For those with chronic illness, CDSM has been shown to improve health, and better manage symptoms, while reducing distress and cost.
		Ohio Department of Job & Family Services/Ohio Medicaid Technical Assistance & Policy Program (MedTAPP) Healthcare Access Initiative: Working with project partners (the CSU School of Social Work, Sisters of Charity Foundation, St. Vincent Charity Medical Center, CareSource, Care Alliance, The MetroHealth System, University Hospitals, and the Cleveland Metropolitan School District), this project trained 50 mentors and 50 mentees from the Schools of Nursing and Social Work (both undergraduate and graduate students) through a newly designed mentor training project. The objectives include increasing the health care practitioners working with Medicaid patients; facilitating interdisciplinary collaboration; and fostering readiness and knowledge of entry-level health care practitioners to meet the needs of the Medicaid population.
		Choose Ohio First Nursing Scholarship Initiative: Funding from the State of Ohio provided scholarship support and mentoring for a group of nursing students.
		Nurse Faculty Loan Program (NFLP): Funding from HRSA enables CSU to offer forgivable loans to MSN and PhD Nursing candidates who plan to embark upon a career in Nursing education after graduation.
Sciences and Health Professions	Mathematics	Operation STEM. \$875,000 NSF-funded initiative to help students who begin mathematics classes at the precalculus level complete their mathematics requirements to obtain a STEM degree.
		University Scholars in STEM and Choose Ohio First Success in Math. \$600,000 NSF and State of Ohio initiative for scholarships for students majoring in a STEM-related major.
		Statistical Inferences from Topology of Complex Networks. \$279,000 U.S. Air Force initiative for research at the interplay of mathematics and statistics in complex networks.
		Lie Models, Mapping Theorems, C-Kahler Manifolds and Topological Complexity. \$35,000 Simons Foundation initiative for collaborative research in mathematics.
	Physics	Fluid flow is an environmental modifier of ADPKD. Study how the primary cilium senses the state of fluid flow to act as a complex signaling center (National Institutes of Health).
		Synthesis, structure & swelling properties of a potential drug delivery system: polysaccharide microgel nanoparticles. Development of non-carcinogenic, stable, reusable microgel nanoparticle that is sensitive to environmental stimuli and can serve as a reservoir for controlled drug delivery and release (Research Corporation).
		Implementation and operation of a field emission scanning electron microscope (FE SEM) facility. Funded by a Major Instrumentation Grant (National Science Foundation).
		Nonlinear Analysis of ECG Time Series of Patients with Epilepsy and Pseudoseizures. Collaboration with Epilepsy Center, Dept of Neurology, CCF to use the mathematical theory of coupled phase oscillators [Kuramoto model] to characterize heart-rate variability of patients and physiological processes controlled by the autonomous nervous systems on times scales 10 s or longer.
	Chemistry	Equation of state from the Potts-percolation model of a solid. Published collaboration in premier journal (Physical Review) with Professor H. T. Diep of the Institute of Advanced Studies of the University of Cergy-Pontoise, France.
		Multi-User Biosensor Integrated Platform. \$15,000; State of Ohio 3rd Frontier Program (via Cleveland Clinic). The project aims at the creation of a multi-user center (consortium) for the development of biosensor devices based on microfluidics that allow for rapid electrokinetic separation and detection of clinically important cellular biomarkers and for in vivo analysis of bacterial cells. State-of-the-art equipment will allow for designing, prototyping, and fabrication of needed devices in a one-stop within the multi-user center.

College	Department	Project Description
		<p>Novel Biophotonic Probes to Monitor Cellular Metabolism of Nucleosides. \$82,649; National Science Foundation (via Case Western Reserve University). This project uses metal-containing nucleosides as spectroscopic probes to further define the mechanism of how nucleosides enter cells. These non-invasive probes can be used to measure the activity of membrane proteins involved in the uptake of natural nucleosides.</p> <p>Development of LC-MS/MS Method for Determination of NGP-01 Biological Samples. \$5,526; NEOMED. Aberrant calcium levels are thought to play a large role in the pathogenesis of neurodegenerative diseases such as Parkinson's, Alzheimer's, and Huntington's diseases. In the present work, a quantitative HPLC/mass spectrometry method has been developed for a candidate neuroprotective drug, NGP1-01, a heterocyclic cage compound with multifunctional calcium channel blocking activity, to determine its pharmacokinetics in blood, brain and retina in a mouse model.</p> <p>OBOR Scholarship Programs of Innovation. \$75,000; Ohio Board of Regents. This "Choose Ohio First" type of grant from the Ohio Board of Regents is meant to provide tuition assistance to pre-medical students.</p> <p>Drug Development of Orally Active Anti-Trypanosomiasis Agents. \$436,500; National Institutes of Health. African trypanosomiasis, also known as sleeping sickness, threatens over 60 million people in 36 countries of sub-Saharan Africa. There are no effective vaccines and satisfactory drugs for its treatment. Dr. Su and biologist Dr. Bibo Li will work together to develop new, small molecule drugs to treat this neglected disease.</p> <p>Investigating Promoter Interactions with Various RNA Polymerases. \$5,079; NSF (via Case Western Reserve University) This project employs biophysical and biochemical techniques to understand the role of specific proteins involved in the initiation of RNA transcription in bacteria. Site-directed mutagenesis is also used to probe the role of specific amino acids with DNA substrates.</p> <p>Targeting Tyrosine Phosphatase SHP2 (PTPN11) for the Treatment of Pediatric Leukemias. \$108,610; National Institutes of Health (via CWRU). Ptpn11 (Shp2) which is a Src homology 2 (SH2) domain containing protein tyrosine phosphatase (PTP) and implicated in multiple intracellular signaling processes, has emerged as a critical regulator of embryonic development and hematopoiesis. In this proposal, our specific aims include: 1) to validate the efficacy and specificity of the Shp2 inhibitors through the use of the Ptpn11 E76K animal disease model; 2) to test the efficacy of the Shp2 inhibitors using human JMML bone marrow cells; and 3) to optimize Shp2 inhibitors to increase the potency and specificity.</p>
	BGES	<p>Structure of nascent peptides and kinetic control of co-translational folding on the ribosome. A three year, interdisciplinary research program involving researchers from Max Planck Institute of Biophysical Chemistry (Goettingen, Germany) and Johann Wolfgang Goethe University (Frankfurt, Germany) and led by CSU that aims to understand the key mechanisms of the protein synthesis and folding in the cell (Human Frontiers Science Program).</p> <p>Stalking the wild Tetrahymena. Publication in Molecular Ecology received commentary on the fundamental importance of population data to understanding the origin and diversification of microbial lineages.</p> <p>Hemophilia B. A comparative study of nonsynonymous and synonymous mutations causing hemophilia B. (American Heart Association).</p> <p>Circadian clock and dietary restriction. The role of an internal time keeping system, known as the circadian clock, in the regulation of longevity and age-associated pathology (National Institute on Aging).</p>
	Psychology	<p>Strength-Based Intervention for Dyads with Mild Dementia. Examination of intervention with caretakers and patients with dementia (National Institute on Aging).</p> <p>Examining Direct Service Worker Turnover in Ohio. Study of factors predicting turnover of individuals providing direct care to the elderly and individuals with disabilities (Centers for Medicare and Medicaid).</p> <p>Understanding PTSD in Pregnant Women. An exploration of the impact of stress on mothers and newborns (Faculty Research Development Award).</p>

College	Department	Project Description
		Factors Influencing School Psychologist Engagement in Preventive Services. Demographic, professional, and workplace features associated with service provision in K-12 schools (Ohio School Psychologists Association).
		Spatial Navigation by Patients with Parkinson's Disease. Neuroscience of impaired and preserved spatial navigation abilities (Faculty Research Development Award).
		Project SHAKTI. Stigma Reduction and Transgender Issues. Study of health care provider awareness and knowledge of transgender issues in India (National Institutes of Health).
		Assessment of Mood and Cognitive Functioning in Older Adults. Examination of functioning in older adults with bipolar and unipolar depression who are undergoing electroconvulsive therapy (Morley Foundation).
		Holistic Aspects of Word Perception. Cognitive processes in perceiving words during act of reading (Engaged Learning Award).
		Motor System Markers of Depression Severity. Neuroscience of impairments associated with clinical depression (Engaged Learning Award).
School of Health Sciences		Innovations in Integrated OT Services [Every Moment Counts: Promoting Children's Mental Health Throughout the Day]. A three-year \$600,000 grant was renewed for Year 2 by the Ohio Department of Education to promote the inclusion of children with disabilities in all school activities and environments and to change the culture in schools throughout Ohio to promote children's mental health. A number of positive outcomes were reported by principals, teachers, parents, children, and occupational therapists for Year 1.
		Education Core for NIMHD P60 grant. A five-year \$600,000 grant to engage institutions in the community to reduce health disparities in Cleveland.
		Culture in Clinical Care: Strategies for Competence, 2nd ed. This text is used to introduce students in healthcare fields to the cultural dimensions of health, beliefs about health, and health practices.
		Preventing occupational dysfunction secondary to aging. Chapter published in Occupational Therapy for Physical Dysfunction, 7th ed. Provides a health promotion perspective on keeping aging adults active, productive, and healthy.
		The relationship between occupational engagement and wellbeing from the perspective of university students with disabilities. Published in the Journal of Occupational Science, this study describes the experience of students with disabilities as they attempt to navigate curricular and extracurricular university life.
		Potent anti-inflammatory activity of sesquiterpene lactones from <i>Neurolaena lobata</i> (L.) R. Br. ex Cass., a Q'eqchi' Maya traditional medicine. Published in <i>Phytochemistry</i> . The widespread use of the leaf of this plant among the Maya of the Caribbean led to a controlled study of its efficacy. The results provide a pharmacological and phytochemical basis for the traditional use of this leaf for inflammatory conditions.
Maxine Goodman Levin College of Urban Affairs	Urban Research & Public Policy	Endogenous dynorphins, glutamate and N-Methyl-D-Aspartate (NMDA) receptors may participate in a stress-mediated type-I auditory neural exacerbation of tinnitus. This study, published in Brain Research, sets the stage for determining the mechanisms in the nervous system in bringing about or exacerbating tinnitus.
		Center for Community Planning and Development Framing Paper and Roundtable on Suburban Poverty, U.S. Department of Health and Human Services (Westat). Draft report submitted to HHS in April 2013; roundtable discussion September 6, 2013 in Washington, DC. This research frames the issue of suburban poverty using customized census data, existing research and interviews. It is the only research on suburban poverty that looks at all suburban places across the country, not just those in major metropolitan areas. It builds on our previous research looking at predominantly minority suburbs of older, large industrial cities, communities that once were thriving but are now severely distressed and have limited capacities to respond to increasing needs. Funded by the U.S. Department of Health and Human Services.

College	Department	Project Description
		<p>Center for Community Planning and Development & Center for Leadership Development Sustainable Cities, Sustainable Communities (SC2) Fellowship program. December 2011 through 2014.</p> <p>The Levin College received a \$360,000 grant to be part of a national team with the German Marshall Fund and Virginia Tech to run the SC2 Fellowship Program. SC2 is a federal interagency pilot initiative that aims to strengthen neighborhoods, cities, and regions by enhancing the capacity of local governments to develop and implement economic visions and strategies. The fellowship program will place highly motivated, mid-career professionals in local government agencies in seven pilot cities for a two-year fellowship period. This project continues through 2014.</p>
		<p>Center for Community Planning and Development Russell Township Land Use Guide Plan Survey - September 2012</p> <p>The Center completed a land use guide plan survey for the Russell Township Trustees and Zoning Commission. The survey will be used to update the Township's guide plan which will guide development for the next 20 years.</p>
		<p>Center for Community Planning and Development Rethinking the Future of Community Development - 2011-2013</p> <p>The Center for Community Planning and Development received two grants, one from the George Gund Foundation and one from Key Bank Foundation to undertake a two-year study of the community development system in Cleveland and make recommendations for the future direction of community development corporations (CDCs). The study includes implementation strategies and will be used to inform the community development/planning curriculum of the Levin College.</p>
		<p>Center for Community Planning and Development Evaluation of the Cuyahoga County Foreclosure Prevention Program - September 2012</p> <p>The Center for Community Planning and Development completed its seventh year evaluating the County's innovative and effective foreclosure prevention program. The program helps Cuyahoga County families prevent foreclosure through counseling, mediation and financial assistance. As the cause of foreclosures shifted from predatory loans to unemployment and under-employment, the evaluation helped the County adjust the program to meet constantly changing needs, \$40,000 for the 6-month period ending May 31, 2013.</p>
		<p>Center for Community Planning and Development and Center for Economic Development Evaluation of Living Cities Integration Initiative in Cleveland - 2010-2013</p> <p>The Centers for Community Planning and Development and Economic Development have been working with The Cleveland Foundation since 2010 as the local evaluators for The Integration Initiative (TII). Cleveland is one of five cities that have received funding through this three-year initiative. The other cities are Detroit, MI; Baltimore, MD; Twin Cities, MN; and Newark, NJ. Each city has a local evaluator and all of the local evaluators work closely with a single national evaluator. The goal of the Cleveland TII is to harness the collective power of the anchor institutions, the city, and other key players in Greater University Circle to develop jobs, income and ownership opportunities for residents of the Greater University Circle neighborhoods.</p>
		<p>Center for Community Planning and Development - Community Planning Program Ongoing</p> <p>This ongoing program provides training and technical assistance to local communities and is home to Best Local Land Use Practices, the local government outreach component of the Ohio Balanced Growth Program, a project of the Ohio Lake Erie Commission and the Ohio Water Resources Council.</p>
		<p>Center for Nonprofit Policy & Practice Welcome House Strategic Plan Update - July 2012</p> <p>This project reviewed and assessed the 2008 Strategic progress toward benchmark measures and offers board of directors development strategies for further implementation of the updated plan, \$10,000.</p>

College	Department	Project Description
		<p>Center for Public Management Feasibility Study for Consolidation of 9-1-1 Dispatch Centers in Richland County, Ohio – December 2012</p> <p>This report assessed the feasibility of consolidating the 9-1-1 public safety answering points located in Richland County, Ohio. The study found that consolidation is feasible, but would not result in a significant savings at this time. Funded by the Richland County Board of Commissioners, \$35,917.</p>
		<p>Center for Public Management Feasibility Study for Consolidation of 9-1-1 Dispatch Centers in Cuyahoga County - September 2012-March 2014</p> <p>This project includes three separate feasibility studies for different groups of communities interested in assessing the feasibility of consolidating public safety answering points. These studies will be completed in 2013 and 2014. Funded by Cuyahoga County, \$240,618</p>
		<p>Ohio Center for the Advancement of Women in Public Service Fiscal Year 2012</p> <p>The State of Ohio awarded the Center with \$75,000 to continue the Mentoring Program, which places University students with Mentors from public, private, and nonprofit organizations in the Cleveland area. The Center focuses on tracking program participants during and after the conclusion of the program. Additionally, the Center showcases College Majors by holding various speaker panels for students to gain insight into possible career tracks. For example, panels of Elected Officials, Economic Development Specialists, as well as Environmental Planners helped students learn about career opportunities. The Center also hosted in conjunction with the Cleveland Council on World Affairs the “Women as Political Leaders Program.” Women from South America, the Middle East, and Africa engaged in a conversation with leaders from Ohio on how American Government works, \$75,000 in FY12.</p>
		<p>Center for Emergency Preparedness Public Utilities Commission of Ohio (PUCO) - July 2012</p> <p>The delivery of Hazardous Material associated programs for public sector agencies who respond to hazardous material related incidents within the jurisdiction of the PUCO, \$400,000.</p>
		<p>The Voinovich Collections (www.voinovichcollections.library.ohio.edu) Ongoing</p> <p>Available through an innovative digital home, the Omeka-based archival website allows users to explore exhibits comprised of material from the collections, view multimedia pieces, and learn about George Voinovich’s impressive 45-year career in public service. This site is a partnership between Cleveland State University’s Levin College of Urban Affairs and Center for Public History and Digital Humanities and Ohio University’s Voinovich School of Leadership and Public Affairs and the Ohio University Libraries. Through an incremental approach, The Voinovich Collections digital archive document selection is driven by student & professor demand. The Voinovich Collections was awarded \$10,000 in April 2012 to support the costs of the Phase 1 & 2 of building and maintaining the website. As well, through the partnership the Voinovich Fellowship was created to grant \$1,000 to a faculty member utilizing the archives in their classroom. Dr. Vera Vogelsang Coombs from the Levin College was granted the award in May 2013. Finally, the project was highlighted by the United States Senate Archivist, encouraging current Senators to utilize the model of our website as it follows the best practices for digitization of archives of this type, \$10,000.</p>
		<p>The Northern Ohio Data Information Service (NODIS) Center Summit County Abandoned and Vacant Database - Completed July 31, 2012</p> <p>NODIS provided Summit County with a property-based database, along with software and database updating procedures for identifying and profiling potential abandoned and vacant properties in the county. The database system will enable the county’s Department of Development, the City of Akron’s Economic Development Department, and other county and city agencies to address economic, community, and neighborhood development issues related to property abandonment and vacancy. Data from county property and service records are combined and a program produces a profile of important characteristics of selected properties or addresses, \$10,000.</p>

College	Department	Project Description
		<p>Northern Ohio Data Information Service (NODIS) Completed August 31, 2012</p> <p>Demographic and Socioeconomic Conditions and a Patron Borrowing Analysis of Cleveland Heights – University Heights Public Library Main and Branch Libraries - NODIS provided an analysis of the demographic and socioeconomic characteristics of the Cleveland Heights - University Heights Public Library's (CH-UHPL) service area and those of the neighborhoods in which the library's patrons live. The project also described the borrowing patterns for the branch and Main libraries and the residential areas in which the libraries are the patrons' primary service facility. The census-based demographic and socioeconomic data included income, number of children, race, Hispanic ethnicity, language spoken at home, ability to speak English, public-versus-private school attendance by grade level, housing tenure (owner/ renter), educational attainment, employment status, and place of employment (Cleveland versus other). Data from the 2010 census and the Census Bureau's 2006-2010 American Community Survey are used. The analysis included projected population to 2015 and 2020. Rates of patronage by neighborhood provided insights into the market penetration of library services in each neighborhood and revealed potential issues of accessibility and quality of service among the branch locations. A matrix of borrower counts by lending branch and residential service area of the patrons provided insight into how a branch draws patronage from its own and other library service areas, \$17,000.</p>
		<p>Northern Ohio Data Information Service (NODIS) The NEO Data Collaboration's Enhancement and Updating of NEO CANDO - Completed May 31, 2012</p> <p>The NEO Data Collaborative is a partnership among three Cleveland institutions – CWRU's Center on Urban Poverty and Community Development, CSU's NODIS, and The Center for Community Solutions-- that collectively have a long history of providing data, information and analysis related to the wellbeing of residents and communities in Northeast Ohio. Although these entities have shared data and worked collaboratively in the past, they have now established a joint program that is providing a unified port of entry and a seamless set of data products and services for the region. See http://urban.csuohio.edu/nodis/nodc/ Among the Collaborative's early projects, it received 10 small grants to create NEO CANDO 2010+, which updates the legacy NEO CANDO data with 2010 Census and American Community Survey data. See http://neocando.case.edu/ NODIS provided the data for all census and local geographies, while CWRU developed the web interface, \$28,000.</p>
		<p>Northern Ohio Data Information Service (NODIS) Cleveland Municipal School District - September 30, 2012</p> <p>NODIS produced student enrollment projections at the neighborhood level for the Cleveland Municipal School District in order to effectively plan for its facilities. The projections must provide a sufficient level of geographic detail (i.e. census blocks) to enable the District to develop alternative school service (catchment) areas and any transportation requirements necessary for the facilities planning and implementation process. Thus the objective of the project was to provide enrollment projections by census block which can be aggregated to school catchment area for a five-year period. The project generated projections for each grade level, \$19,000.</p>
		<p>Northern Ohio Data Information Service (NODIS) Medina County - October 10, 2012</p> <p>NODIS assisted the Medina County Board of Elections (BOE) in revising precinct geography in the county that was required due to recent congressional, Ohio General Assembly, and city ward boundary changes. The project also assisted the BOE in reducing the number of precincts in the county, \$9,000.</p>
		<p>Northern Ohio Data Information Service (NODIS) Ohio Manufacturers' Association - June 30, 2012</p> <p>NODIS provided demographic, socioeconomic, and election results data for the new Ohio General Assembly and congressional districts. Maps for the Ohio Manufacturers' Association's 2010 Election Guide, \$11,000.</p>

College	Department	Project Description
		<p>Leadership Programs Strong Cities, Strong Communities (SC2) - Jan. 2012 - May 2014; Dec. 2011 - May 2014</p> <p>The Levin College, Center for Leadership Development received a grant from the U.S. Department of Housing and Urban Development (HUD) to design and deliver the SC2 Fellowship Management Academy. This White House initiative is a federal inter-agency initiative housed at HUD that aims to strengthen neighborhoods, cities, and regions by enhancing the capacity of local governments to develop and implement economic visions and strategies. A gift from the Rockefeller Foundation funds the fellowship program. The seventeen SC2 fellows are highly motivated mid-career professionals working in local government agencies for a two-year (24 month) fellowship period, \$360,680.</p>
		<p>Leadership Programs Public Transit Management Academy (PTMA) - Jan. 2012 - July 2013</p> <p>The Levin College, Center for Leadership Development received a grant from the Federal Transit Administration to run the Public Transit Management Academy for the Greater Cleveland Regional Transit Authority (GCRTA). This program provides a customized professional development program that will improve GCRTA employees' management and leadership skills. In addition, this program guarantees delivery of innovative solutions to agency problems through required participant projects. These projects are designed to disseminate innovative solutions and transform its organizational culture. Ninety employees will participate in the program and be eligible for continuing education credit and/or academic credit at the Levin College, \$286,688.</p>
		<p>Leadership Programs Neighborhood Leadership Cleveland (Class #28) – Feb. 2012 – Offered Annually</p> <p>The Levin College Center for Leadership Development offers the Neighborhood Leadership Cleveland program in collaboration with the Neighborhood Leadership Institute. Its 14-week curriculum includes class sessions on leadership topics ranging from personal goal setting to neighborhood development. In addition to the weekly classes, participants also attend an opening two-day retreat, organize tours of their neighborhoods, and work with their classmates on group projects. Through their participation in Neighborhood Leadership Cleveland, grassroots leaders learn a wide variety of skills, including how to: serve as advocates for their families and communities, collaborate with others to get things done, make public presentations, work with government agencies and social service providers, and find and utilize resources. The program is funded through a City of Cleveland block grant, \$28,000.</p>
		<p>Great Lakes Environmental Finance Center GLEFC 2012 – 2013: U.S. EPA: April 1, 2012 to March 31, 2013, \$190,000. GLEFC 2013 – 2014: U.S. EPA: April 1, 2013 to March 31, 2014, \$165,000.</p> <p>Training and Technical Assistance for Small Public Water Systems in U.S. EPA Region 5, New Mexico Tech./Environmental Finance Center Network/EPA: \$83,000. Valuation of Public Assets, Cincinnati Streetcar System, The Superlative Group \$6,000. Valuation of Public Assets, Playhouse Square Theatre District, The Superlative Group, \$9,000. Valuation of Public Assets, Dallas (Tx.) Area Rapid Transit (DART), The Superlative Group, \$9,000. Valuation of Public Assets, Ohio Department of Transportation: Four Services, The Superlative Group, \$9,000.</p>
	Department of Urban Studies	<p>Skills, regions and entrepreneurship. Funded by Regional Studies Association. Dr. Qian's research examines the effects of geographically bounded skills on entrepreneurship. A recent U.S. Department of Labor dataset (O*NET) identifies 87 skills related to specific occupations. The principal outcome of this research is to identify the subset of these skills associated with regional entrepreneurial activity. From the policy perspective, this research aims to provide a skills-enhancing alternative to direct subsidies or incentives as a way to encourage entrepreneurship, \$15,000.</p>

College	Department	Project Description
		<p>“Historic rehabilitation tax credits and urban development: A comparative analysis of U.S. cities.” Faculty Scholarship Initiative. Dr. Webster’s research examines the role that federal historic rehabilitation tax credits (RTCs) are playing in the transformation of 21st century U.S. cities. The project is the first cross-city comparison using address-level RTC data and employing a mixed-methods approach. The funds are supporting graduate student assistance, \$4,635. Research and planning for the 2014 CSU-hosted conference on historic preservation. The grant is supporting research that will contribute to the substantive content of the conference and Dr. Webster’s time to coordinate conference planning. The research project supported by these funds focuses on the use of historic preservation as a community development and neighborhood revitalization tool throughout the City of Cleveland. The research analyzes the intersection between preservation and community development in Cleveland by exploring how the city’s community development corporations (CDCs) have utilized preservation to advance their generally socially-oriented missions, \$51,370.</p>
		<p>“Effects of Persistently Distressed Economic Conditions on Health Disparities,” Principal Investigator Dr. Clark. 2013-2014. Levin College of Urban Affairs, Junior Faculty Mini-Grant Program, supported by a NIH grant (P60 MD002265) through the MetroHealth/Case Western Reserve University Center for Reducing Health Disparities, \$5,000.</p>
		<p>“Identifying Health Disparities Using Individual Electronic Medical Records (EMR),” Principal Investigator Dr. Clark. 2013-2014. Faculty Research Development Grant, Cleveland State University, \$23,343.</p>

Enrolled: represents the number of cohort students enrolled as an undergraduate in a given term excluding those who have received a bachelor's degree from CSU prior to the reported term.

Note: Cohort Definition

1) A student attending any institution of higher learning for the first time at the undergraduate level includes students enrolled in the fall term who attended college for the first time in the prior summer term and students who entered CSU with advanced standing (college credits earned before graduation from high school).

2) By the university census date, the student has registered for 12 or more credit hours in the fall semester.

3) The student is seeking a baccalaureate degree.

Enrolled: represents the number of cohort students enrolled as an undergraduate in a given term excluding those who have received a bachelor's degree from CSU prior to the reported term.

Honors Program

Cleveland State University inaugurated its new Honors Program in Fall 2004 with a class of 40 highly motivated, academically talented first-year students. As of Fall 2012, the enrollment in this program has grown to approximately 200 students.

Freshmen admitted to the program receive renewable scholarships covering tuition and academic fees. Juniors admitted to the program receive renewable scholarships of \$5000 per academic year. Honors students accept the challenge of participating in intensive and specialized versions of general education classes, and are granted special consideration in several areas including preference in registration and extended university library borrowing privileges. During Summer 2012 and 2013, many Honors students were engaged in paid on-campus undergraduate research experiences. Honors students enroll in at least four honors core courses during their freshman and sophomore years at CSU. These courses offer greater breadth or depth than standard university general education classes. Enrollment is limited to Honors students and class sizes are small.

As juniors and seniors, Honors students focus on their majors. Upper division Honors students have the opportunity to do additional honors work under faculty supervision in established courses, enroll in graduate courses, participate in a faculty member's research project or laboratory, do an independent research project, a service learning project, and/or an internship, job, or engage in a co-op experience. The specific program depends on the student's major.

Beginning Fall 2005, transfer students and current CSU students entering their junior year have been admitted. First year students admitted in Fall 2004 were chosen from among applicants who were in the top 10% of their high school class or had a composite ACT score of at least 27 (90th percentile). New first year admits for Fall 2007 and later must be in the top 10% of their high school class or score at least a 30 on the ACT (97th percentile).

Major Features of the Honors Program

■ Enriched curriculum ■ Leadership development ■ Honors community and experiences

Table 6.1: Characteristics of New Honors Students - Fall 2008-2012

College	New Enrollment by Cohort Year					Percent Change	
	2008	2009	2010	2011	2012	1-year	5-year
Business	7	8	13	7	4	-43%	-43%

ACT Composite	28	29	29	30	30	0%	7%
SAT Composite ³	1802	1953	1815	1943	1930	-1%	7%

Honor student data reported in this table are provided by the Honors Program Office.

Cohort Year includes newly admitted students in both lower and upper levels.

High School ranking, GPA, ACT and SAT scores reported are for "active" and "lower level" students only.

¹ Total is not the sum of the students due to "dual" majors.

² For cohort year 2008, although top 10% HS ranking is indicated as 55% there were 10 students who came from schools that do not rank their students.

For Cohort 2011, 17 students came from Schools that do not rank their students. For Cohort 2012, 8 students came from schools that do not rank.

³ SAT Composite score are the sum of "Math & Verbal" for years 2005 to 2007, for subsequent years, all three components (Math, Verbal, & Writing) are included.

Table 6.2: Scholarship Aid for Honors Students by Financial Aid Year

Table 6.3: IPEDS Cohort Characteristics

According to the U.S. Department of Education, and the Integrated Postsecondary Education Data System (IPEDS), the Freshmen Cohort Definition must meet the following criteria: 1) A student attending any institution of higher learning for the first time at the undergraduate level, includes students enrolled in the fall term who attended college for the first time in the prior summer term, also includes students who entered CSU with advanced standing (college credits earned before graduation from high school). 2) By the university census date, the student has registered for 12 or more credit hours in the fall semester. 3) The student is seeking a baccalaureate degree.

Table 6.3a: Average ACT Composite Scores by College for IPEDS Cohort Students

Cohort		Business	CLASS	Education	Engineering	Nursing	Science	Undergraduate Studies	Urban Affairs	University	Total Cohort	% of Cohort with ACT/SAT
Fall 2008	Total Students	139	261	105	103	52	199	107	3	969	1,007	96%
	Average	20.7	21.2	19.4	23.4	22.5	21.6	17.6	20.0	20.9		
Fall 2009	Total Students	142	297	119	117	41	240	106	5	1,067	1,127	95%
	Average	20.8	20.8	19.5	23.5	22.1	21.3	17.4	17.6	20.8		
Fall 2010	Total Students	122	332	83	126	115	274	35	7	1,094	1,148	95%
	Average	21.7	20.8	19.9	22.8	20.5	22.3	17.1	23.7	21.4

Center for eLearning

In 2006 the Center for eLearning was established to lead the University's eLearning initiative. The Center has the goals of increasing University enrollments and enhancing academic quality through fully online degree and certificate programs available.

The Center's major roles are to:

- Provide leadership for the University's eLearning initiative
- Support and train faculty in designing and developing fully online, blended, and Web-enhanced courses
- Work with academic units on eLearning program development and marketing
- Lead in the use of emerging eLearning technologies
- Ensure availability of information and services for online students

Since its establishment, the Center has worked energetically to create a solid support infrastructure for eLearning and to expand the number of programs and courses offered in online or blended formats. As the charts below show, substantial growth in eLearning enrollments has occurred as more online and blended courses are being offered. Enrollments in eLearning courses have continued to grow rapidly, new programs have joined the group of programs already offered online, and support for both faculty and students is strong.

* In Spring 2008, the process was changed to use the Class Attribute Table for those Classes listed as ONLINE and/or BLENDED.

** In 2008-09 and going forward, the process will use the Class Attribute Table for extracting Enrollment and SCH information for Annual Web Enrollment and SCH Trends.

Note: Enrollment and SCH is based on those students who did not have a withdrawal date for a Web Based Course.

Enrollment within each semester is unduplicated, but Total may be duplicated if a student was enrolled in multiple terms over the year.

** Web-based: Courses delivered primarily using the Internet. These courses are identified by section number (501-509) for Fall 2004-2007, or by their class attribute (Online and/or Blended) for Fall 2008 and going forward.

Trends in Interactive Video and Telecourse Instructional Delivery

The rapid growth in distance delivered student credit hours illustrates the important role distance learning plays today at many institutions, including Cleveland State. New technology, equipment, growing faculty interest, and support services at CSU have led to an increase in courses offered, the number of students enrolled, and smoother instructional delivery. Faculty development workshops and individual training and support in conducting interactive video classes along with creating web-based classes have been instrumental in developing these courses. Interactive video hook-ups now link our extended campuses and partner schools with the Main Campus, providing students the opportunity to take a class at another site which might not have been possible in the past. Web-based courses provide even more scheduling flexibility.

Cleveland Transfer Connection (CTC)

Building upon the experiences and success of the CSU learning community initiative, in 2009 we successfully launched the Cleveland Transfer Connection Program, a cooperative initiative between CSU and Cuyahoga Community College designed to promote academic success and increase college graduation rates. Cleveland Transfer Connection offers the benefit of a systematic process of course completion that leads to transfer-readiness and contributes to retention and degree completion. In this unique partnership program students begin their college years enrolled in learning communities at the community college to earn an Associate's Degree then transfer to CSU to complete the Bachelor's Degree in a total of 4-5 years. The program is customized for students who are entering advance level course work. The first cohort of 87 Cleveland Transfer Connection students entered the program in 2009 and 57 (66%) will transfer to CSU for Fall 2012 classes.

Office of Advancement

CSU Foundation

Alumni, faculty, staff, friends, corporations and foundations support Cleveland State University each year with philanthropic gifts. These gifts provide additional resources that are necessary for sustaining a high quality educational experience for the University's diverse student body. Various appeals and initiatives are conducted through the Annual Giving Program, including direct mailings to all alumni, student phonathon drives, specialized mailings from various departments within the University, an annual appeal among the faculty and staff of Cleveland State University, and collaboration with multiple special events held both on and off campus.

Philanthropic Highlights: 2012-2013

- Cleveland State University secured more than **\$2.9 million** for **scholarships**; the number of endowed scholarships increased from 272 to 281.
- **Radiance, CSU Realizing the Promise** raised **\$782,000** for student scholarships, surpassing its second year total of \$504,300. Radiance scholarships will be awarded to undergraduate students in good academic standing who are at risk for dropping out of school because of finances.
- Established a donor recognition program by creating Lifetime Donor Recognition and Legacy Giving Societies of over 700 donors at \$10,000+ and 85 Legacy Society benefactors.
- Secured 40 major gift commitments (\$25,000 and up) and an additional 63 gifts from \$10,000 - \$24,999.
- Increased our alumni donors by 18%.

Highlights

- Cleveland State captured the 2012-13 James J. McCafferty Trophy, presented annually by the Horizon League in recognition of the league's all-sport champion. It is the second time CSU won the award (2007-08).
- CSU also won the Men's All-Sports Award, scoring the most points among the men's sports among the nine schools in the Horizon League.
- The Vikings won four Horizon League Championships this year; men's soccer, volleyball, men's swimming and diving and men's tennis.
- In addition, women's swimming and diving and men's golf finished as Horizon League runner-up.
- Cross country runner Kelly Zaleski was named the Spring 2013 College of Nursing Valedictorian as well as the Spring 2013 Class Valedictorian.
- Junior wrestler Ben Willeford captured the 125-pound title at the EWL Championship and advanced to the NCAA Championship. He was joined at nationals by freshman heavyweight Riley Shaw who finished third at the EWL Championship.
- Senior softball standout Dara Toman was named the Horizon League Player of the Year and concluded her career as the all-time leader in home runs in Horizon League history with 60.
- The cross country team earned All-Academic Team honors from the United States Track and Field/Cross Country Coaches Association.
- Both the men's and women's swimming and diving teams were named Scholar All-America Teams by the College Swimming Coaches Association of America.
- Seniors Kara Koch (volleyball) and Dara Toman (softball) and juniors Andrew Bailey (men's golf) and Al Shillito (men's swimming) were all named Horizon League Player of the Year in their respective sports.
- Three head coaches - Chuck Voss of volleyball, Ali Kazemian from men's soccer and Wally Morton of men's swimming and diving - were honored as Horizon League Coaches of the Year.

Note: Percentage equals the expenditures for scholarships and fellowships divided by total expenditures.

Financial Aid Office

Cleveland State University's Financial Aid Programs

Financial aid is money that is provided to help bridge the gap between students' own resources and the amount of money needed to pay the cost of attending college. Approximately 71 percent of Cleveland State's students receive some form of financial assistance. The University participates in or administers all of the major federal and state grant and loan programs. In addition, Cleveland State provides University grants and scholarships.

Financial aid reported reflects awards to undergraduates enrolled in the fall term of the academic year. Although the university awards a substantial amount of financial aid to additional students, this data reflects a particular point in time by using standard figures as defined by IPEDS (<http://nces.ed.gov/ipeds/>) and the Common Data Set (www.commondataset.org).

Notes

The undergraduate financial aid reported reflects awards to undergraduate students enrolled in the fall semester of the academic year. The university awards financial aid on a continuous basis throughout the academic year. However, this data reflects a specific point and time as defined by IPEDS <http://nces.ed.gov/ipeds/datacenter> and the Common Data Set (www.commondataset.org), generally accepted as the 15th day of fall semester.

For financial aid calculations; full-time undergraduate, graduate and law students are those enrolled for 12 or more credit hours. Part-time undergraduate students are enrolled for 11 or fewer credit hours. Part-time graduate and law student enrollment ranges from 6 to 11 credit hours.

The “Cost of Attendance” tables reflect the estimated average cost of attendance for a full-time, in-state student attending CSU for two (2) semesters during the academic year, and includes estimated tuition and fee charges, books, allowances for room and board, transportation and personal/miscellaneous.

Types of Financial Aid

Federal Grants: Pell Grant, Supplemental Opportunity Educational Grant (SEOG). TEACH Grant.

State Grants for Undergraduates: Ohio College Opportunity Grant (OCOG) and Other State tuition grant programs.

State Aid for Graduate/Law Students: Graduate and Professional Fellowship.

Scholarship/Institutional Grants for Undergraduates: Refer to <http://www.csuohio.edu/enrollmentservices/financialaid/scholarships>.

Scholarship/Institutional Grants for Graduate/Law Students: Includes Graduate Assistantships, Tuition Waiver and Scholarships.

Non-Institutional Aid: Assistance awarded from external agencies.

Federal Student Loans: Stafford subsidized/unsubsidized and Federal Perkins loans.

FWS: A federally-funded student employment program established to assist students through part-time, on-campus positions or off-campus community service positions.

Center for International Services & Programs

International Services

The Center for International Services & Programs (CISP) seeks to build a globally oriented, metropolitan university community where students, faculty and staff gain and share international knowledge and experience. Established in 1996 as a separate university entity and now a part of the Division of Enrollment Services, the Center provides CSU international students and visitors with a wide array of support services to help them achieve a positive learning experience while in the United States and Ohio. A second focus of the Center is supporting and facilitating education abroad opportunities for CSU students. This is accomplished by supporting Faculty-led (short term) courses and programs, assisting students in identifying education abroad options, administering scholarships and other related education abroad initiatives. A third area of focus is to facilitate, develop, and support international academic initiatives within each department and college, including faculty Fulbright Program participation.

A full description of Center services and programs can be found at: <http://www.csuohio.edu/offices/international>.

Table 8.21: Cleveland State University International Academic Initiatives

College	Academic Initiatives	Activities
Liberal Arts & Social Sciences (CLASS)	Middle Eastern Studies Program	Presently developing a Study Abroad option which will include language and culture studies. Have applied for a Fulbright Scholar in residence grant.
	Masters Program in Global Interactions	Prepares students for a career in a global environment through an interdisciplinary set of courses. International Relations majors will concentrate in an in-depth study of one of the following areas: International Business and Economics, Asia Studies, Central and Post-Soviet States, Africa and the Middle East, or Latin America and the Caribbean.
	Modern Languages	Arabic courses, Chinese courses, English Translations of Foreign Literature (ENF) courses, French (B.A.), German (B.A. - suspended) minor, Greek courses, Italian courses, Japanese courses, Latin courses, Modern Language (culture; or languages such as Portuguese, Russian, or Quechua) courses, Spanish (B.A.).
	Interdisciplinary Studies	Slovenian Studies Center is created in conjunction with the government of Slovenia, CSU, LCC, KSU, BGUSU. Courses will be offered in Slovenian culture and language.
Business	Expand international business education and outreach services in Northeast Ohio	Global Trade Scholar program; Provide market research, international trade and investment assistance; Improve credit transfer between community colleges and CSU for international business degree programs. Recently signed agreements with Friedrich Alexander University, University of Lubjana School of Economics.
Business & CLASS	Faculty Led Short Programs	Study Tour of Chile Study Tour of German Study Tour of Paris Explore the Auvergne Region and Paris International Marketing and Business Research in England Study trip to Japan, they have also added trips to Abu Dhabia and China Language and Culture in Mexico Language and Culture in Costa Rica Study in Spain
Education & Human Services	Confucius Institute	Providing programming in Chinese Language K-12 Instruction throughout the greater Cleveland area. Special Program to China for Students of Leadership Academy and Cleveland Heights School District. They continue to develop a Chinese as a Second Language Certificate
Engineering	New Academic Program	Developed a 3+1+1 academic program in Electrical Engineering, Applied Biomedical Engineering and Software Engineering with Bahcesehir University in Turkey. A group of students have done Engineers without Borders to Belize.
Law	Indian Certification	CSU Law School Degree recognized in India.
Sciences & Health Professions	China Joint Degrees	Shenyang Pharmaceutical, Three Gorges University, Guangxi Teacher Education, and Guangxi University

Notes:

[1] RW - Rhodes West designation is used for way finding.
This space is included in Rhodes Tower totals.
[2] Vacant-Planned Construction/Renovation.
[3] Leased spaces

[5] May include Non-Institutional Uses
[6] Building Name Change
[7] Total does not include Heritage Apartments, Langston Apartments, Viking Hall or Kinkos

Accreditation

Cleveland State University is accredited by the Higher Learning Commission, a commission of the North Central Association of Colleges and Schools (NCA).

College	Degree/Program	Accreditation
Business	Bachelor of Business Administration	AACSB International, The Association to Advance Collegiate Schools of Business
	Master of Business Administration	
	Doctor of Business Administration	
	Master of Labor Relations & Human Resources	AACSB International, The Association to Advance Collegiate Schools of Business
	Accounting (undergraduate & graduate)	
Education and Human Services	College of Education and Human Services	The National Council for the Accreditation of Teacher Education (NCATE) and approved by the Ohio Department of Education
	Community Agency Counseling and School Counseling	Council for Accreditation of Counseling and Related Educational Programs (CACREP)
	Master of Public Health	Council on Education for Public Health (CEPH)
	Doctor of Urban Education in Counseling Psychology	American Psychological Association (APA)
Engineering	Chemical, Civil, Computer, Electrical, Industrial, and Mechanical Engineering (undergraduate)	Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET)
	Electronic Engineering Technology	Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (TAC/ABET)
Law	Law	American Bar Association and member of the Association of American Law Schools
Liberal Arts and Social Sciences	Music	National Association of Schools of Music
	Bachelor of Social Work	Council of Social Work Education (CSWE)
	Master of Social Work	
Nursing	Nursing (undergraduate)	Commission on Collegiate Nursing Education (CCNE) and approved by the Ohio Board of Nursing
	Nursing (graduate)	Commission on Collegiate Nursing Education (CCNE)
Sciences and Health Professions	Chemistry (undergraduate)	American Chemical Society
	Doctor of Clinical/ Bioanalytical Chemistry	Commission on Accreditation in Clinical Chemistry (ComACC)
	Master of Occupational Therapy	Accreditation Council for Occupational Therapy Education
	Doctor of Physical Therapy	Commission on Accreditation in Physical Therapy Education
	Psychology Specialist (School Psychology)	National Association of School Psychologists (NASP) and NCATE
	Master of Speech Pathology and Audiology	American Speech-Language-Hearing Association (ASHA) Council on Academic Accreditation (CAA)
Urban	Master of Public Administration	National Association of Schools of Public Affairs and Administration (NASPAA) Planning Accreditation Board
	Master of Urban Planning, Design, and Development

OBOR: *Ohio Board of Regents*

SCH: *Student Credit Hour*

Book of Trends 2013

http://www.csuohio.edu/offices/iraa/bot/BOT_13.pdf

The Book of Trends (BOT) 2013 represents the continuing commitment of the Office of Institutional Research and Analysis (IRA) to present updated information about Cleveland State University (CSU). A variety of tables and charts provide trend information over a five-year period as well as some key attributes and characteristics of the University for the most recently completed academic year.

The purpose of this publication is to provide readers with frequently requested statistical information used in planning, reporting, and assessment. In order to serve the campus community more effectively, we welcome suggestions and comments.

1. The student information presented in the Book of Trends 2013 is based on the End of Semester files used for Ohio Board of Regents (OBOR) reports unless specifically noted from a different data source.
2. Students exclusively enrolled in English as a Second Language, Study Abroad or other zero credit hour courses are included in the Book of Trends for years 2006-10.
3. The various Deans' offices provided IRA with a set of grant/highlight information used to produce Table 4.13. IRA limited these selections in order to meet space requirements. This table is not intended to be a comprehensive listing, but merely to reflect some of the interesting activities of our faculty, staff and students.
4. Each year we attempt to provide comparative data to other colleges and universities in Ohio. These comparisons are typically centered on information available from the Ohio Board of Regents' Higher Education Information System (HEI) <http://regents.ohio.gov/hei/index.php>. At the time of publication a few of the tables normally presented here were not available due to some schools updating prior years' data, or changes to the HEI system. Please be aware that the HEI tables presented in this year's book represent various states of completion:
 - a. The data may be complete for the reporting year and can be used accordingly.
 - b. The data may be complete for most institutions, but a few may be unfinalized, in which case only finalized ones are reported or in some cases unfinalized numbers are included but footnoted as such.
 - c. In some cases many schools had unfinalized the type of data being reviewed and in those cases we have simply reproduced the prior year's data with appropriate titles and footnotes.

Note: Based on feedback received from the campus community, we have removed some selected tables from the Book of Trends. If you require data from any of these missing tables, please contact our office and we can provide you with the requisite information.

Please direct questions and/or suggestions to 216-687-4700. The entire Book of Trends series is available online on the IRA website (<http://www.csuohio.edu/iraa/bot/bookoftrends.html>).

We encourage you to reference the web version of the Book of Trends because we can easily make changes/updates if necessary. By the same token, if a URL is provided in the book such as the ones linked to Research Centers & Institutes, the Ohio Board of Regents, etc., we encourage you to refer to the linked site for the most up-to-date information.

We would like to take this opportunity to thank all members of the campus community as well as our graduate assistants for their support and contributions to this publication.
